Address: Kalyan, Maharashtra – 421306

Summary

AI & Machine Learning Engineer and BCA student with a strong foundation in agentic workflows, LLMs, and data architecture. Proficient in Python, FastAPI, and machine learning, with hands-on experience building autonomous AI assistants, RAG pipelines, and scalable systems. Passionate about developing end-to-end projects in analytics, automation, and business intelligence to solve complex real-world challenges.

Relevant Coursework: Data Structures, DBMS, Statistics, Python Programming, Machine Learning, AI

Education

2024-2027	Bachelor of Computer Applications (BCA) B.K. Birla College, Kalyan University of Mumbai	9.20/10
2024	12 th HSC - Science K.V. Pendharkar Junior College, Dombivli Maharashtra State Board	71%
2022	10 th SSC National English High School, Kalyan Maharashtra State Board	85%

Internships & Trainings

Feb-Apr 2026	Data Science Training Program, Imarticus Learning Ltd. Thane - Designed MySQL database and wrote queries using CTEs, Views, and Window Functions. - Performed EDA and Visualizations using Python, Pandas, and Seaborn to derive key insights. - Developed interactive Power BI dashboards analysing Customer Behaviour and Sales data. - Scored among the highest for data storytelling and presentation out of 60+ interns.
On-site	
Mar-Sep 2025	Digital Marketing & SEO Intern, HiDigital Marketing Solutions LLP, Kalyan - Executed on-page, off-page, technical, and local GMB SEO to improve organic search visibility. - Conducted keyword research, SERP analysis, and competitor audits to identify opportunities. - Authored and optimized 100+ SEO-focused blog articles aligned with topical search intent. - Used GA4, Search Console, Screaming Frog, Ahrefs, AEO, and GEO to drive data-backed insights.
6 Months –	
On-site	

Academic Projects

ML	Performed academic risk prediction analysis using XGBoost on a Student Performance dataset.
AI/LLM	Built CAWNCADE AI, a multi-agent fact verification system using RAG, ReAct and Llama 3.1
BI	Created Power BI dashboards analyzing ₹160M+ Flipkart sales using DAX, KPIs and visuals.
SQL	Analyzed employee and project data using MySQL joins, views, subqueries and CTEs.

Technical Skills

Languages	Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Keras), SQL
Tools, Database & Frameworks	MySQL, Power BI, Excel, MongoDB, FastAPI, LangChain, FAISS, Redis, JupyterLab, GCP, Git/GitHub, Zapier, Hugging Face, Streamlit, Livkit

Additional Information

2026	Business Pitched AI Governance, Presented Case Studies and Attended AI Workshops
2025 -2026	Member of Computer Society of India (CSI), organized technical events
2024	Secured CET Score (95.00%ile) in MAH-BCA-CET 2024

Interests: Data Science, Machine Learning, Agentic AI, Automation, Applied Analytics

Hobbies: Building AI projects, reading about emerging technologies and AI Research Papers.

Continuously upskilling through Digital trainings and open-source educational resources.
